Experience

Product Analyst, Codiant Software Technologies — **May to Jul 2026**

- I analysed 3 data sources across 2 live conversational AI products, using SQL on PostgreSQL.
- I quantified 3 recurring issue types.
- I ranked them by frequency into a prioritised fix list.
- I documented each issue with evidence.
- Delivered in 6 weeks.

Consulting and Frontend Developer, Dentilligence — **Mar to Apr 2026**

- I worked directly with the founder.
- I turned requirements into a deployed customer-facing web feature within 2 months.
- Then I pitched the product and won 1st place at the LBS Healthtech Challenge 2026 (50+ teams).

Assistant Area Director, Admin, Toastmasters International (VIT) — **Jul 2025 to Jul 2026**

- I ran operations and reporting across 10 clubs.
- I tracked KPIs.
- I raised compliance by 15%.
- I built an onboarding program from scratch.
- I trained 20 club secretaries.

Marketing Intern, Blinkit — **Jul to Oct 2025**

- I ran a campus outreach campaign reaching 200+ students.
- It got 10,000+ engagements and 50% higher brand visibility.
- I tracked everything by channel.

Projects

- **Mendia Hospital Chatbot.** I tested an 8-agent LLM app that serves 3 user roles: admin, doctor and patient. https://mendia.codiantdev.com
- **Solara.** An ML image-classification model for solar panel cleanliness and dirt type, with a React and Vite frontend. https://github.com/mitisha-sharma/solara
- **VCAP Research Program.** Process mining on OCEL 2.0 event logs, plus Python scripts that detect code-to-thesis mismatches. We were a team of 3.
- **BlinkMorse.** An ESP32 eye-blink Morse communication system, built as a course project.

Wins

- **Reverse Coding Champion, ACM VIT.** 1st among 150+ teams. Precision up 25% through prompt engineering.
- **1st place, LBS Healthtech Challenge 2026.** 50+ teams.
- **Two GraVITas certifications.** Git version control workflows, and Fusion 360 CAD.

Skills

- **Data:** SQL, PostgreSQL, Python, Excel, Power BI
- **Product and analysis:** Root cause analysis, Requirements, Documentation, KPI tracking
- **AI tools:** Prompt engineering, LLM testing, LangGraph
- **Web:** React, FastAPI
- **People:** Stakeholder management, Presenting, Training

Education

- **B.Tech Computer Science and Engineering**, VIT Vellore, 2023 to 2027
